

Space Technology Hall of Fame®

Improving Life on Earth

The Space Foundation is proud to honor those who successfully transform space technology into products that benefit life on Earth. Space Technology Hall of Fame® inductees are honored in special ceremonies including a gala awards dinner, the capstone event of the National Space Symposium. These activities also increase public awareness of the benefits of space technology transfer and encourage further innovation.

Visit SpaceTechHallofFame.org where we pay tribute to dozens of outstanding technologies and hundreds of individuals and organizations.

For more information or to submit nominations of down to Earth technologies for induction, visit www.SpaceTechHallofFame.org or call 1.719.576.8000 or 1.800.691.4000
